Brighton Colorado

- Brighton Police Department was looking to reduce police calls and graffiti in their public spaces, but struggled cause they didn't have enough resources to address the issues. Within the first year of the FlashCAM program launch, the City of Brighton has seen a 50 percent overall reduction in graffiti, in addition to a 98 percent decline in public park areas.

Data/Case Studies

- The potential to create an initiative that generates a **positive cash** flow from revenues generated from fines, assets seized from commercial offenders, and remuneration levies (e.g. Chicago, Baltimore, and Saint Louis, and others)
- **CHICAGO** –is one of our more recent tier one cities. Average 2-3 cases per (2 week) collection cycle, average per case is \$2046 at almost a 100% connection rate and they still ramping up.
- **ST. LOUIS** –over 120 of our systems throughout the city to address this very expensive issue. Within the first 2 months of installation, they prosecuted over 200 cases, producing more than \$100,000 total in revenue within the first 2 months.
- **BALTIMORE** – averages more than 1,000 cases per a year and 5 million dollars in fines

Data/Case Studies

- The potential to create an initiative that generates a **positive cash** flow from revenues generated from fines, assets seized from commercial offenders, and remuneration levies (e.g. Chicago, Baltimore, and Saint Louis, and others)
- **Surrey, Canada** –started a program and within a year they saw a 30% reduction in dumping incidents and a 35% reduction in cleanup costs.
- **Newport News**–prosecutes around 4-5 illegal dumping cases a month for every camera installed. Averaging around \$500 a fine.
